100% FRUIT JUICE

"**Camissa**", the Place of Sweet Waters, was the name given to the Cape Region of South Africa centuries ago by the indigenous Khoi-San people. The Cape Region's first fresh fruit were grown from seeds rescued from a ship wreck in 1647. With fertile soil, a mild Mediterranean climate and ample natural, fresh streams rushing down from the slopes of Table Mountain and the inland mountain ranges, this region is today home to export quality, premium fruits which are expertly grown and processed. Certain fruit varieties are carefully selected from fruit growing areas other than Camisa, to bring you our wonderful great tasting "**100% FRUIT JUICE**".
